Subpart B—Oil-Spill Response Plans for Outer Continental Shelf Facilities

§ 254.20 Purpose.

This subpart describes the requirements for preparing spill-response plans for facilities located on the OCS.

§ 254.21 How must I format my response plan?

(a) You must divide your response plan for OCS facilities into the sections specified in paragraph (b) and explained in the other sections of this subpart. The plan must have an easily found marker identifying each section. You may use an alternate format if you include a cross-reference table to identify the location of required sections. You may use alternate contents if you can demonstrate to the Regional Supervisor that they provide for equal or greater levels of preparedness.

(b) Your plan must include:

- (1) Introduction and plan contents.
- (2) Emergency response action plan.
- (3) Appendices:
 - (i) Equipment inventory.
 - (ii) Contractual agreements.
 - (iii) Worst case discharge scenario.
 - (iv) Dispersant use plan.
 - (v) In situ burning plan.
 - (vi) Training and drills.

§ 254.22 What information must I include in the “Introduction and plan contents” section?

The “Introduction and plan contents” section must provide:

- (a) Identification of the facility the plan covers, including its location and type;
- (b) A table of contents;
- (c) A record of changes made to the plan; and
- (d) A cross-reference table, if needed, because you are using an alternate format for your plan.
